Professional Summary

Frontend / MERN Stack Developer with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST API integration, JWT authentication, responsive UI development, reusable components, and modern frontend architecture with a strong focus on performance and user experience.

Technical Skills

Languages: JavaScript, HTML5, CSS3, SQL, C++

Frontend Technologies: React.js, React Router, Redux Toolkit, Zustand, Tailwind CSS, Material UI, Framer Motion

Backend Technologies: Node.js, Express.js

Database Technologies: MongoDB, Mongoose

Authentication & APIs: JWT Authentication, REST APIs, API Integration

Real-Time Communication: Socket.IO

Development Tools: Git, GitHub, Postman, VS Code, npm, Vercel

Core Concepts: Component-Based Architecture, State Management, Responsive Design, Reusable Components, UI/UX Optimization, Performance Optimization

Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Projects

Phone Guru: Digital Learning Platform for Seniors

2025

React.js, Redux Toolkit, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, Material UI

[Live](#) | [GitHub](#)

- Engineered a full-stack tutor-learner platform aimed at reducing digital illiteracy by enabling young tutors to help elderly and non-technical users learn mobile apps, digital payments, and essential online services through guided sessions.
- Addressed the growing digital divide among older adults by creating a personalized learning experience for a demographic where 42% of seniors actively seek to improve digital skills, fostering greater confidence and independent technology usage.
- Architected a secure role-based ecosystem using JWT authentication with dedicated Tutor and Learner dashboards, incorporating session scheduling, request handling, Today Sessions, Upcoming Sessions, and Session History modules.
- Implemented OTP-based login, configured 10+ REST APIs using Redux Toolkit, and optimized an accessibility-focused responsive interface tailored for senior citizens and less tech-savvy users across mobile and desktop devices.

BeatChat: Music-Integrated Real-Time Chat Platform

2025

React.js, Node.js, Express.js, MongoDB, Socket.IO, Zustand, DaisyUI

[Live](#) | [GitHub](#)

- Crafted a secure real-time messaging platform designed to enhance conversations through music streaming, AI-powered assistance, and personalized user experiences.
- Leveraged Socket.IO to enable instant communication with typing indicators, online/offline presence tracking, and synchronized message delivery for seamless interactions.
- Enabled users to search and stream 90M+ songs through Deezer API integration, while introducing 32 customizable themes and an AI-powered chatbot, "neuron", to increase engagement.
- Boosted media performance by approximately 40% through image optimization techniques and verified usability through pilot testing with 10+ users prior to deployment.

Experience

ChainFly Tech Solutions Pvt. Ltd.

Remote

Software Developer Intern (Frontend)

Oct 2025 – Nov 2025

- Contributed to frontend development of an AI-driven drone platform for solar panel cleaning automation using React.js and Tailwind CSS.
- Worked on reusable UI components, responsive layouts, and interface improvements to enhance cross-device user experience.
- Assisted in implementing animations and interactive UI elements using Framer Motion and GSAP for smoother user interactions.
- Collaborated with the development team to understand the existing codebase, implement feature enhancements, and improve frontend usability.

Education

Bachelor of Technology (B.Tech) – Information Technology

2025

Dr. Ram Manohar Lohia Avadh University (Institute of Engineering & Technology)

Ayodhya, Uttar Pradesh

Senior Secondary (Class XII)

2020

Pt. Vishwambhar Nath Inter College

Uttar Pradesh

Certifications

The Complete Web Development Bootcamp – Dr. Angela Yu (Udemy)

Coding Ninjas C++ Certification
